

Produce better tasting food while improving yields. Enhance your customers' eating experience with WTI's solutions.

# Simple. Clean. Safe.

## Food Ingredients

Use one of WTI's proven products or let our team of food scientists and culinary experts design a solution that fits your and your customer's needs.

### Description

lonal® is WTI's clean label line of buffered citrate blends.

### Our Solutions

- Accentuate the natural flavors
- Enhance water-holding capabilities through superior ionic strength
- Are effective at low usage rates
- Preserve color
- Improve texture and sliceability
- Extend shelf-life
- Keep food safe by inhibiting outgrowth of *Listeria monocytogenes* and *Clostridium perfringens*, and controlling the growth of mold, yeast and spoilage organisms

### Applications

**Beef**   **Pork**   **Poultry**  
**Seafood**   **Produce**   **Prepared**

### Versions Available

- Reduced sodium (25-60% less sodium)
- Antimicrobial; pathogen protection of *Listeria monocytogenes* and *Clostridium perfringens*
- Mold, yeast and spoilage organisms control

### Ease of Use

lonal® products are in powder form and can be added directly to food; incorporated in brines or marinades for inject, tumble or spray applications; or, blended into seasonings or marinades.

### Usage Rates

0.5% to 1.3% of formula weight

### Ingredients

Sodium citrate or potassium citrate (available with the addition of sodium diacetate)

### Packaging

lonal® products are available in bags.
